

**Science Outreach – Athabasca
presents...
Chelicerates: arachnids and
their relatives**

**Speaker: Robert G. Holmberg,
Emeritus Professor,
Athabasca University
Date: October 26, 2023
Time: 7 PM to 8:30 PM
Place: Athabasca University
Governing Council Chambers
1 University Drive, Athabasca, AB**

Just in time for Halloween...

This will be a show and tell presentation about the second most diverse group of animals (after insects) in the world. It will cover the biology, diversity, and importance of sea-spiders, horseshoe-crabs, sea-scorpions, and the arachnids (scorpions, spiders, mites, ticks, harvestmen, etc.). During this talk, you can learn the distribution of Canadian black widow spiders, scorpions, and sun-spiders as well as harvestmen that overwinter, in the thousands, in caves.

Free community event! This will be an in person and virtual event.

Please join us in person or go to our website to join the event virtually on the day of this talk. [Science Outreach - Athabasca website](https://www.scienceoutreach.ab.ca/)

***** Any changes will be posted on our website. *****
