

Join Science Outreach - Athabasca for a fun filled 2-day Lego robotics camp!

Learn how to think and work like scientists, engineers, and robots. Using LEGO MINDSTORMS NXT 2.0 products, participants will build a robot with applications that will allow the robot to sense direction, rotation, touch, and color!

**August 13 & 14, 2014**

**Drop Off and Pick Up:**

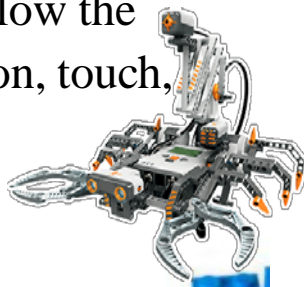

**Athabasca Regional Multiplex**

**10:00am-2:00pm**

**\*Bring a bagged lunch\***

**Ages: 9 and up**

**Cost: \$50**

Ever want to know what Unmanned Aerial Vehicles (UAVs) do? Ever want to learn how UAVs solve environmental questions and how to use robotics to build technologies that can make them fly on their own!? Join Science Outreach - Athabasca for an aerial robotics camp! Use technologies that enable autonomous flight, obstacle course maneuvering, and video monitoring!

**August 15, 2014**

**Drop Off and Pick Up:**

**Athabasca Regional Multiplex**

**10:0am-3:00pm**

**\*Bring a bagged lunch\***

**Ages: 12 and up**

**Cost: \$40**

Sign up fast because this program has limited space!

For more information on this and other Science Outreach - Athabasca activities go to our website at:
