

**Science Outreach – Athabasca
presents...**

**“Superbugs: The rise
of antimicrobial
resistant bacteria.”**

Speaker: Dr. Shauna
Reckseidler-Zenteno
Date: April 16, 2012
Place: Athabasca
University Governing
Council Chambers
Time: 7 PM to 8:30 PM

Admission is free.

Refreshments will be available after this presentation.

The increase in antimicrobial resistant bacteria is now considered to be a serious global health threat. Resistant bacteria are those that cannot be killed by antibiotics. This presentation will cover how antibiotics work to eliminate bacteria, the development of antibiotic resistance, and the impact of antibiotic resistance on health and agriculture, and preventative measures that can be taken in the fight against emerging resistance.
