

**Science Outreach –Athabasca
presents...
Northern Viticulture
and Climate Change**

**Speaker: Dr. Juha Karvonen,
University of Helsinki, Finland**

Date: Thursday, April 13, 2017

Time: 7 PM to 8:30 PM

**Place: Athabasca University
Governing Council Chambers**

Join Dr. Juha Karvonen, author of Northern Viticulture explain how the current northern growth conditions differ from the growth conditions in the traditional viticulture countries and what requirements they impose on northern viticulture as well as how climate change will influence on them.

- Requirements for viticulture in the north
- A thick layer of snow is a winegrowers friend
- Planting depth of grapevines in the Baltic Sea region
- The growth cycle of grapevines at 60° N
- High latitudes and I altitudes viticulture
- Impact of climate change on Northern viticulture
