# Wolves of the Yukon

Bob Hayes is a wildlife biologist. He has published in wildlife science journals and academic books. He is retired and he and his wife, Caroline, share their time between Whitehorse and Smithers, British Columbia.

Go to the Yukon and experience what the natural world is really like... and if not, then read this book and you'll yearn to go.

*Todd Fuller, Professor of Wildlife Conservation, University of Massachusetts - Amherst*

If you like wildlife and wilderness, read this book. It is about wolves, but much more than that.

*Ulrich Wotschikowsky, Wildlife Management Consultant*
